

Given an ArrayList, the task is to get the first and last element of the ArrayList in Java.

Input: ArrayList = [1, 2, 3, 4]

Output: First = 1, Last = 4

Input: ArrayList = [12, 23, 34, 45, 57, 67, 89]

Output: First = 12, Last = 89

### Approach:

1. Get the ArrayList with elements.
2. Get the first element of ArrayList using the get(index) method by passing index = 0.
3. Get the last element of ArrayList using the get(index) method by passing index = size - 1.

**Answer:** (penalty regime: 0 %)

```

1 import java.util.ArrayList;
2 import java.util.Scanner;
3
4 public class Main {
5     public static void main(String[] args) {
6         Scanner scanner = new Scanner(System.in);
7
8         // Read the size of the ArrayList
9         //System.out.print("Enter the number of elements: ");
10        int n = scanner.nextInt();
11
12        // Initialize the ArrayList and add elements
13        ArrayList<Integer> list = new ArrayList<>();
14        //System.out.println("Enter the elements:");
15        for (int i = 0; i < n; i++) {
16            list.add(scanner.nextInt());
17        }
18
19        // Get the first element
20        int firstElement = list.get(0);
21
22        // Get the last element
23        int lastElement = list.get(list.size() - 1);
24
25        // Display results
26        System.out.println("ArrayList: " + list);
27        System.out.println("First : " + firstElement + ", Last : " + lastElement);
28
29        scanner.close();
30    }
31 }
```

The given Java program is based on the ArrayList methods and its usage. The Java program is partially filled. Your task is to fill in the incomplete statements to get the desired output.

```
list.set();
list.indexOf();
list.lastIndexOf()
list.contains()
list.size();
list.add();
list.remove();
```

The above methods are used for the below Java program.

Write a Java program to reverse elements in an array list.

Sample input and Output:

Red

Green

Orange

White

Black

**Sample output**

List before reversing :

[Red, Green, Orange, White, Black]

List after reversing :

[Black, White, Orange, Green, Red]
